

## Work smart, enjoy your work and make an impact!

You love learning. You enjoy playing with new tech and exploring areas that you might not have experience with yet. You have a good experience with data visualization and business intelligence tools ecosystems like Tableau - Tableau Desktop, Tableau Prep, and Tableau Server, building new data visualizations, fixing data issues, showcasing your work, and planning. You are a self-driven, self-learner willing to share knowledge and participate actively in your community.

Come on Board! Join us as a

# BI Tableau Developer

Miejsce pracy: Warszawa

## IN THIS ROLE YOU WILL BE:

- Developing, maintaining, and managing advanced dashboards in Tableau
- Efficiently handling big data sets, ensuring data is correct and handled efficiently but without error
- Translating business needs into technical requirements
- Challenging the client's demand and proposing extra solutions
- Maintaining security and access aspects of the Tableau dashboards
- Prioritizing and successfully delivering the roadmap on time
- Being involved at the deepest level with our internal client to understand their environment and adapt/deploy the relevant BI expertise
- Conducting BI projects from end to end by coordinating the different teams
- Communicating frequently with stakeholders about project status
- Identifying bottleneck situations and solve them with the BI team
- Training users about Tableau Product

## SKILLS REQUIRED:

- 2+ years of professional experience in Data visualization, data processing, reporting
- Proven technical expertise with Tableau products (development and administration)
- Strong knowledge of data management practices and principles (attention to details with a strong focus on accuracy, data validation, and data integrity)
- Good technical expertise with SQL (particularly SQL Server Management Studio)
- Strong communication skills with the ability to engage with a wide range of stakeholders
- Taking a value-driven approach and make appropriate prioritizations and practical decisions to get things done
- Maintaining a constant focus on innovation and improvement, for example by identifying opportunities for control automation
- Fluent written and spoken English
- Strong focus on teamwork
